Profile

I'm a firm believer in the power of combining diverse skillsets. My background in Mining Engineering from AASTU provides a strong foundation in problem-solving, while my training as a Frontend Developer from Alx Software Engineering fuels my passion for technology. This unique blend allows me to approach challenges from creative angles, bridging the gap between technical aspects and real-world applications.

Education

Awards

2024/02/20

Price and Certificates (as Founder of AlbuAi)

KOICA and Innobiz-k Ethiopia

Winning the Idea Competition organized by KOICA and Innobiz-k Ethiopia was a transformative experience. It wasn't just about the award prize, but the recognition and validation it provided for my idea.

Car Flipping

Udemy

This comprehensive program covered everything from market research and negotiation to repairs and resale strategies. Now, armed with this knowledge and my certificate, I'm excited to take the leap and begin my car flipping journey.
